## N95 Mask

**N:** This is a Respirator Rating Letter Class. It stands for “Non-Oil” meaning that if no oil-based particulates are present, then you can use the mask in the work environment. Other masks ratings are R (resistant to oil for 8 hours) and P (oil proof).

**95:** Masks ending in a 95, have a 95 percent efficiency. Masks ending in a 99 have a 99 percent efficiency. Masks ending in 100 are 99.97 percent efficient and that is the same as a HEPA quality filter.

**Material:** The filtration material on the mask is an electrostatic non-woven polypropylene fiber.

**Valve:** Some disposable N95 masks come with an optional exhalation valve.

“The presence of an exhalation valve reduces exhalation resistance, which makes it easier to breathe (exhale,)” according to the CDC.

**Inner:** Spunbond - 25 gr -

**Middle:** Meltblown - 25 gr -

	Part No.
	KN-1211

Flat-fold disposable respirator with its innovative design helps provide comfortable, reliable worker protection against non-oil based particles.

- Efficient filtration: Filtering at least 95% of dust, haze droplets, etc
- GB2626-2006 Standard, non-medical respirator.
- 5-layer purification: melt-blown non woven, moderate thickness for particle absorption, double layered electrostatic filter, and highly efficient at filtering particles.
- Breath with nose: advanced non woven fabric provides easier breathing.
- Ergonomic design: comfortable to wear, low impedance filter material with no odor.
- Securely sealed: adjustable metal nose clip strip ensures optimal sealing between the bridge of the nose and the mask.
- 5 masks per sealed bag
- For non-medical use.

## Microporous Coverall with & without Tape

### SPECIFICATION:

Color : White  
Type: Protective Clothing  
Standard Style: Coverall with Hood, elastic waist wrists and ankles.  
Seam Type: 3 thread over lock stitch  
Sub Type: Disposable Coveralls  
Available Sizes: S, M, L, XL, 2XL & 3XL  
Certified: FDA Registered & EU Standards  
Weight: 60gsm  
Fabric: Microporous film laminate

Category III (Complex) product designed for protection against hazards:

- Type 5 (EN13882-1) protection against hazardous dry particles.
- Type 6 (EN13034) protection against reduced sprays (light splashes and sprays) of liquid chemicals.

Packed 1 pc in a Packet - 50 Pc in a carton

## Disposable Coverall

### DISPOSABLE COVERALL

American Safety White Disposable Coveralls are composed of flash spun high density polyethylene which creates a unique, nonwoven material provides an ideal balance of protection, durability and comfort of any limited use fabric technology. American Safety White Disposable Coveralls fabric offers an inherent barrier against particles. Protection is built into the fabric itself; there are no films or laminates to abrade or wear away. American Safety White Disposable Coveralls fabric's durability advantage over other nonwoven fabrics delivers consistently better barrier, even after wear and abrasion.

### SPECIFICATIONS

Product Name: Disposable Coverall  
Artical Number: DC-1352  
Fabric: Non Woven polypropylene Fabric  
GSM: 40 GSM  
Color: White  
Sterilize: Sterile (E-Beam) / Non Sterile  
Design: Coverall  
Seam : Searged Seams  
Zipper : Long Front Zipper Closure  
Waist: Elastic Waist  
Wrist: Elastic Wrist  
Ankles: Elastic Ankles  
Hood: Attached Hood with Elastic Closure  
Size: Standard

Packing 1 pc / Poly Bag  
(the Poly Bag can be customized printing)  
50 pcs / carton  
(carton size depends on material weight)

### FEATURES

Comfort fit design based on extensive wearer input to provide our most comfortable garment design that, enables a greater range of movement while stretching and bending, provides a more tailored fit, offers reinforcement in high stress areas for fewer blowouts, utilizes a longer zipper for easier donning and doing and an elastic waist to better position the garment.

- Laydown collar
- Elastic wrists
- Elastic ankles

## ISOLATION GOWN Level (1, 2 & 3)

### MEDICAL ISOLATION GOWN

#### LEVEL 1

Weight: 25-30 GSM  
Lamination: Non-Laminated

#### LEVEL 2

Weight: 45-50 GSM  
Lamination: Laminated

#### LEVEL 1

Weight: 60 GSM  
Lamination: Laminated

### General Information

AAMI Level (1, 2 & 3) gown for non-surgical uses, primarily for use as isolation gowns. A polyethylene film gown. The gowns have completed strength and barrier testing and conform with ASTM and ANSI standards. They are labeled in compliance with FDA guidance on non-surgical apparel.

### Product Description

- Standard thumb loop isolation gown with great protection
- Fabric: Polyethylene Material
- Color: Blue
- Design: Single piece

### Main Characteristics

- Lightweight polyethylene gown for clinical and laboratory settings
- Disposable single use gown
- Embossed finish for improved comfort
- Ultrasonically or heat sealed for optimal barrier protection
- Size: Universal
- Full-length wraparound with over the head style neck and dual side ties for best fit, easy & quick donning and doffing.
- Thumb loop on sleeve by wrist to keep cuff under glove and prevent sleeves from sliding up
- Made in PAKISTAN

### Intended Use

- For use in clinical and laboratory settings
- Intended to protect from the transfer of microorganisms and bodily fluids in low or minimal risk patient isolation situations
- Not intended for high risk surgical procedures, or where the risk of contamination is high

### Compliance

- Conforms with ANSI/AAMI PB70 Level 2 protection Packaging
- Each gown is individually folded and packaged into a bag

## DETAIL PRESENTATION

## COLORS

## COTTON LABCOAT

### LABCOAT

#### OPTION 1

Weight: 140 GSM  
Fabric: 100% Cotton  
Fabric: 100% Polyester

#### OPTION 2

Weight: 190 GSM  
Fabric: 100% Cotton  
Fabric: 80% Polyester - 20% Cotton

#### OPTION 3

Weight: 240 GSM  
Fabric: 100% Cotton  
Fabric: 65% Polyester - 35% Cotton

### General Information

We are engaged in offering an appealing collection of LabCoats that is applicable in various laboratory work. The offered range is stitched and designed by implementing the latest methods and utilizing the best grade fabric. Fulfilling the needs of clients, we have been able to offer this coat in diverse sizes, designs and patterns to meet their varied requirements. Apart from this, it is designed for letting the students to carry out experiments safely and keeping their body parts safe.

### Product Description

- Brand : Prime Captain
- Color: White
- Design: Single Piece

### Features:

- Excellent finish
- Superb design
- Smooth texture

### Main Characteristics

- Plastic 4 Hole Button Front
- Left Chest Pocket
- Two Lower Outside Pockets
- 100% Sanforized Cotton Heavy Weight Twill
- Logo & Embroidery option available
- Sizes : Small, Medium, Large Etc.
- Made in PAKISTAN

### Intended Use

- For use in clinical and laboratory settings
- Not intended for high risk surgical procedures, or where the risk of contamination is high

### Compliance

- Each gown is individually folded and packaged into a bag
